**Campaign Spending:** [List of Filers](#)

Aloha,

It has been an honor to serve our district for the last ten years as your State Senator. We improved our schools, improved our environment, strengthened our economy, and provided increased opportunity for young and old in Hawaii.

As the Education Chair for the last six years we increased early education opportunities for many of our keiki. We reduced the repair and maintenance backlog in our public schools. We created programs to support our teachers. We increased new ways for our students to access education. We moved the University of Hawaii along the course toward increased autonomy. The medical school was constructed. The P-20 initiative was birthed. The 3R's- Repair, Remodel, Restore program was started. The Running Start program was created to allow our students to obtain college credit and meet high school requirements simultaneously.

We need to continue to focus on Education. Our children need to be equipped and prepared to live with good values, be respectful of others, as well as our land, our aina. Our children and all learners must be able to compete in a global economy. Our education system needs to be a path to successful futures for all of our people.

With your support, I hope to continue to serve our community. I will do my best to have our children's children say, "Hawaii is a good place to live."

Aloha and God Bless,  
Norman
